

RMS Spatial Reasoning Virtual Series – Spring 2017

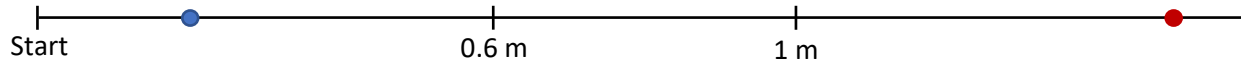

Session #1

The Lady Bug Task

Task A: A lady bug travels along a straight path. How far does the lady bug travel from the start to each dot along the path?

Task B: A lady bug travels along a straight path. How far does the lady bug travel from the start to each dot along the path?

Task C: A lady bug travels along a straight path. How far (in cm) and what proportion of the destination does the lady bug travel from the start to each dot along the path?
